## Early Market Shows General Fractional Declines.

BUSINESS LARGELY PROFESSIONAL

Uncertainty Over Northern Securi. ties Matter and Rumors of Further Trouble in the Commercial World Restrict Operations-Manhattan and Sugar Active.

The early trading in today's Stock Mar ket was on a moderately active scale, with the price movement somewhat irregular. Opening transactions as a rule were at a fractional decline. Delaware and Hudson was noteworthy for weakness on heavy selling, falling off 3 points in anticipation of an unfavorable dividend. After the first hour the list in general became firmer, and prices rallied in some in- Trust stances slightly above yesterday's final

The opening weakness was due partly on a continuation of the selling movement which was in progress at the close of business yesterday and also on account of declines in American stocks in the London market and the selling for foreign account which developed in the business

## Irregularity in Manhattan

In the latter morning aggressive strength was displayed by Sugar Refining and Manhattan Railway. Later these stocks sagged off again.

The trading seemed to be governed by the same considerations which were effective yesterday, comprising the uncertainty as to the upshot of the proceedings against the Northern Securities Company and the rumors of further trou-ble in the commercial world.

The Western Securities. Missouri Pacific, after opening off a

fraction, showed strength. Union Pacific, after a weak opening, recovered its loss. St. Paul generally ruled fractionally above last night's close.

Bid. Asked 139% J. S. 5's, R. 1904...... J. S. 5's, C. 1904. Q. F. The parrowest and most unimportant

market of recent days tired the Street professionals this morning into a con dition of mind bordering on acute pessimism. There was no business worth mentioning except that of the professional operators, and prices deckined fractionally all the morning under their realizing and short selling. The only feature of the market commented on was that there seems to be little disposition to sell investment holdings of stocks. This was, of course, mentioned as a favorable feature, but the bears said that liquidation is likely to begin at any time if the profe Jonals make a sharp drive at prices and succeed in cutting the level down a point or two.

Conservative brokers are advising their customers to buy stocks only on recessions and to exercise extreme caution in making selections.

Manhattan Rumors Prevalent.

Manhattan was the most active featur this morning with an advance to 140 and a decline of a point from that level later. The Street hears all kinds of optimistic rumors regarding the company and the stock and the prevalence of this gossi; has led to the suspicion in some quarter that some inside interest, or importan pool, may wish to liquidate a part of its

holdings at the present high level. The future of the Manhattan company looks very good, and some of the experts say that the stock will ultimately sell much higher in all probability, but this

should not be any reason for too eager buying for speculative accounts, after the recent sharp advance.

Conflicting Atchison Stories.

The talk regarding the Atchisons is va ed. One good house tells of a pool beng formed in the stocks on the outlock or a handsome earnings statement for becember, and because the company is December, and because the company is supposed to be earning at present nearly if not quite 10 per cent on the common stock. On the other hand, there is a story that the company contemplates the issue of a large block of bonds for improvement work that has already been done and paid for out of current earnings or with borrowed money.

A third rumor is that the Atchison and Rock island officers are working together on a plan for reciprocal traffic arrangements. There seems to be a very good supply of the stock in market at all times recently.

Talk of a Sugar Compromise. The sugar rumor is that the different nterests have arrived at a compromise regarding proposed legislation. It is said hat the Leet sugar growers have con sented to a certain reduction of the tariff on Cuban raw sugar. No official con-firmation of the story can be discovered. Sugar stock was fairly strong at one time this morning, but later sold off.

Steel Stocks Dull. The steel securities were dull and at prices fractionally lower than those of

yesterday. There was nothing new in the gossip regarding the stocks or the Steel The San Francisco Issues. The strength of the San Francisco is

The Street heard again this morning that the Vanderbilts have arrived at a decision to carry out their Eastern Securities Company pian along the line of the Northern Securities Company. Tips were given out by different brokers to buy the Nickel Plate securities.
